PROFILE

Software Engineer specializing in Java Backend Development with expertise in Java, Spring Boot, Hibernate, REST APIs, SQL, and Full Stack Web Development. Hands-on experience in designing and developing scalable web applications using React.js, Node.js, MySQL, and MongoDB, with a strong understanding of Object-Oriented Programming, Database Design, and software development best practices. Passionate about solving complex problems, building high-quality applications, and continuously expanding technical expertise through real-world projects and hands-on learning.

PROJECTS

SmartSplit – AI-Powered Expense Splitting Application

Role: Full Stack Developer

Key Responsibilities

- Developed a full-stack application for tracking and splitting group expenses.
- Built responsive user interfaces and integrated secure RESTful APIs.
- Designed and managed the database for users, groups, and transactions.
- Implemented AI-powered expense categorization and automated bill splitting.
- Optimized application performance and followed clean coding practices.
- Managed source code using Git and GitHub.

Sports Turf Booking & Management System

Role: Full Stack Developer

Key Responsibilities

- Designed and developed the frontend using HTML, CSS, and JavaScript.
- Developed backend APIs using Node.js and Express.js.
- Designed and managed the MySQL database schema.
- Implemented user authentication and booking management features.
- Integrated frontend with backend REST APIs.
- Tested and debugged the application to improve performance and reliability.
- Managed source code using Git and GitHub.

Local2Vocal

Role: Full Stack Developer

Key Responsibilities

- Designed responsive user interfaces using React.js.
- Developed backend services with Node.js and Express.js.
- Created RESTful APIs for business listings and user management.
- Integrated MongoDB for efficient data storage.
- Optimized application performance and responsiveness.
- Collaborated using Git version control.

Netflix Clone

Role: Frontend Developer

Key Responsibilities

- Built responsive web pages using HTML, CSS, and JavaScript.
- Replicated the Netflix homepage UI with modern layouts.
- Implemented responsive design for desktop and mobile devices.
- Improved frontend development skills through reusable components.

SKILLS

Frontend Technologies HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap	Backend Technologies Java, Spring Boot, Spring MVC, Hibernate, Node.js, Express.js, REST APIs, JWT Authentication
Programming Language Java, JavaScript, SQL, C++	Database MySQL, MongoDB
Development Tools Microsoft Visual Studio, MS Visual Studio Code, Git, GitHub, IntelliJ IDEA.	SoftSkills Problem Solving, Communication, Team Collaboration, Time Management

EDUCATION

Bachelor of Engineering (Computer Engineering) [2024 – 2028] Savitribai Phule Pune University [SPPU]	CGPA: 8.67/10
HSC (Maharashtra State Board) [2024]	70 %
SSC (Maharashtra State Board) [2022]	91.60 %
